94%

BUNDLE REDUCTION

Decoupled architectural boundaries from 6.2MB down to 350KB.

30%

FASTER DELIVERY

Accelerated delivery via contract-based workspace isolation.

100%

CORE WEB VITALS

Perfect Lighthouse scores on the paths users actually take.

20+

ENGINEERS IMPACTED

Mentored engineers, governed design systems, and aligned teams.

/ WHO IS WRITING

About ME.

Plenty of people write UI code. Mine is a different thing: I learned to make software work when there was nothing to work with, and I have spent eleven years applying that where there is.

So performance never looked like a final polish to me. It was the condition for the thing existing at all.

/ EIGHTEEN YEARS, TWO COUNTRIES

Professional EXPERIENCE.
